

Ball Fitting

CHALLENGE

BRIDGESTONE GOLF

Find The Ball That Fits **Your** Game

Choosing the right ball for your game can make a dramatic difference in your performance on the course.

Bringing the Tour Experience to You!

As with club fitting, ball fitting can guide you to a golf ball that maximizes your performance from tee to green through optimizing your ball speed, launch angle and spin rates.

The same technology that we use with Tour Professionals to find the right golf ball is now available for you! Using a sophisticated computer system, the Science Eye, allows us to enhance your performance in a complimentary session. Take the Bridgestone Challenge and find the ball that fits your game!

The Fitting Process

With your driver, you will hit a series of shots using your current golf ball of choice.

Based on your ball flight characteristics, the technician will confirm you are playing the right ball or recommend a Bridgestone/Precept ball that better suits your game.

After hitting a series of shots with the recommended ball you will be given a side-by-side comparison of all data allowing you to determine which ball can maximize your performance with your driver.
